

TEICHERT CONSTRUCTION

TO: Residents and Business Owners

DATE: November 4, 2009

FROM: Chris Barkley

SUBJECT: Main Street Rehabilitation
Project

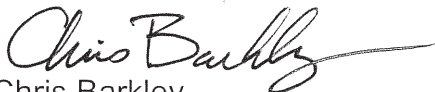

Dear Residents and Business Owners,

Teichert Construction will be performing road repairs and paving in your neighborhood beginning this week. Currently, this work is planned to start November 5th and continue into December. Work includes removal and replacement of pavement and concrete on Main Street. During the course of this work, we will post "No Parking" signs along the street at various locations. These signs will have the work hours included on them. During these times, we will need to restrict access in order to complete our work in a safe and timely manner. We ask that you do not park on the street as it would prevent us from completing this important work. We also ask that you limit or consolidate your travels to and from your neighborhood during these hours as we will be placing new concrete and asphalt on Main Street that needs time to cure prior to being driven on. Please make sure that all garbage cans, debris, toys, basketball hoops, etc. are kept behind the curb or walk so that we can effectively perform our work. We will be using large equipment and trucks to repair your street. Please be extra cautious and aware of your surroundings and please do not allow children to play near any equipment or trucks so we can maintain a safe environment for your family and our employees.

We would like to thank you in advance for your cooperation and assistance while we work to improve your neighborhood streets. If you have any questions, please contact me at 916-825-7520. If you have an emergency related to this project, our work or equipment, please call our 24 hour emergency hotline at 1-800-287-7383.

Thanks again for your patience and understanding while we do this work to improve the quality of your neighborhood .

Sincerely,

Chris Barkley
Project Engineer
